The Production Process

Cotton Farmers

Cotton seeds are planted throughout the world and once ready, the cotton is separated from the plant. Harvested cotton is then sent to the production facility to be processed.

Ginning - Spinning - Weaving

The picked cotton undergoes a ginning process that removes impurities and separates the fibers from the seeds. Then the fibers are drawn-out and spun together to form yarn which then gets woven into fabric.

Your Guest

As they say, a referral is one of the greatest compliments you can get. Guests consistently compliment our clients on their choice of beautiful and comfortable bed and bath linens, often asking to buy some for their own home.

Fabric Preparation + Finishing (Dyeing)

The preparation and finishing process involves dyeing and bleaching the fabric to get it ready to be made into various Eden Textile products.

Your Property

Our quality products provide you with peace of mind that you have received a quality product that improves your guests' experience.

Sewing

Fabrics are then sewn and cut into finished products ready for use.

eden textile

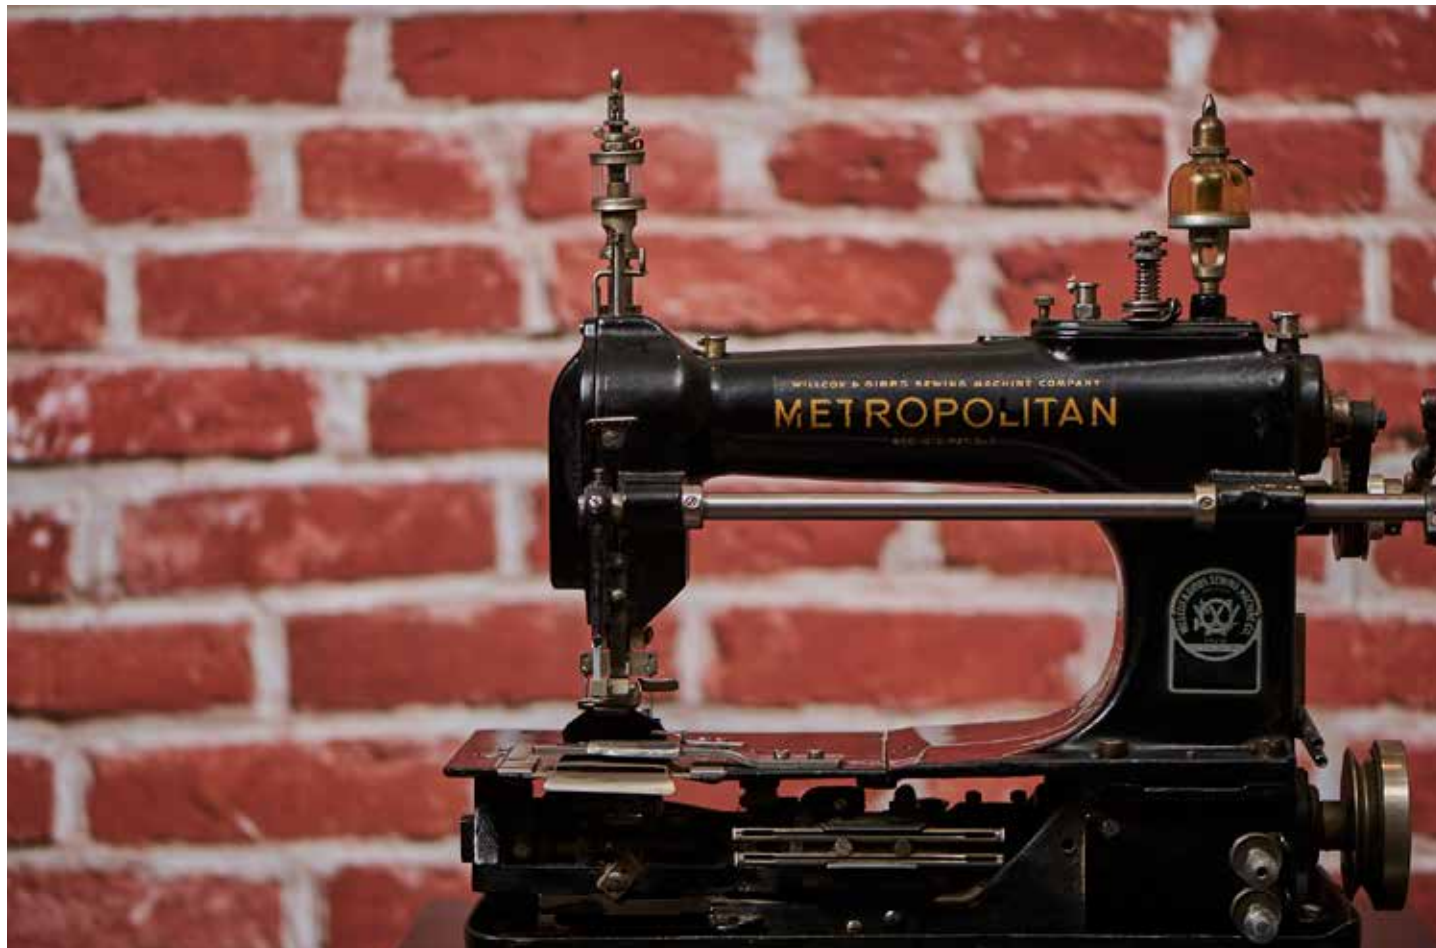

(QA, Warehousing, Ready-to-order)

The finished products undergo a final quality assurance inspection by our expert team. The final products are stored in our warehouse where it is ready to be delivered to your property.

Third Party Inspection Process

The finished products undergo a third party inspection to ensure that it meets our rigorous quality standards.

Extraordinary Company

Eden Textile has been a leading force in the commercial textile industry for over 70 years. We are committed to exceeding your expectations through every aspect of the order process. We strive to provide superior products as well as excellent service and have been doing so for decades. Eden Textile is a multifaceted leader and the source for commercial textiles.

From the selection of rich raw materials straight through to production and final delivery of your order, Eden Textile takes great pride in delivering high-quality products and client experiences. Our friendly, responsive sales team is here to answer any questions about our products and services.

Trusted Partners

At Eden Textile, we are dedicated to developing and maintaining solid, open relationships.

Our vast warehouse space and manufacturing capabilities allow us to offer a diverse range of products within virtually any budget or specification. Our team of textile experts and design consultants ensure that our products fit with today's trends and exceed expectations. Eden Textile is committed to helping you develop a look and style that will leave a lasting impression on your guests.

Eden Drapery & Manufacturing

Eden Textile makes your ideal room materialize before your very eyes delivering the best quality and highest value.

Manufacturing Experts

We work with your designers to achieve the perfect aesthetic solutions for your guests; both practical and affordable. From ready-made top-of-bed products to custom room designs. Eden Textile will manufacture anything and everything for your bed, window or bath; making a vision into a beautiful and functional reality.

The Healthcare Industry

We've been doing this for decades - slightly over seven, to be exact. Eden Textile has extensive experience providing quality service to hospitals, long-term care and continuing care facilities, retirement homes, clinics and laundry facilities across Canada.

We recognize that providing comfort to patients while maintaining cost effectiveness and product longevity is a key concern and strive to meet and exceed the needs and expectations of those in the healthcare industry.

Thinkers, shapers, movers and doers: Our friendly, responsive sales team is here to answer any questions about our products and services.

★ Indulgence™ T-220 Sheets

The most popular line of linens; the Indulgence™ Sheets are an ideal blend of strength, comfort, and affordability.

- 60/40 combed cotton polyester blend
- Natural selvage sides
- Preshrunk to reduce future shrinkage in product
- Wrinkle-resistant with high pill resistance
- Coloured size-indicator thread on bottom hem
- Machine washable & dryer-safe
- Only available in white

Sheet Thread Colour Guide

For convenience and ease of identification when laundering sheets, we have implemented a colour coding system for our sheets. A coloured size-indicating thread runs through the bottom hem of all our Opulence™, Indulgence™, and Expres™ sheets.

The following represents the sheet sizes and their associated coloured hem.

📦 T-200 Bone Sheets

These well-made sheets remain soft and comfortable after repeated washings.

- 60/40 cotton polyester blend
- 12" or 15" pocket on fitted sheets
- Natural selvage sides
- Preshrunk to reduce future shrinkage in product
- Wrinkle-resistant with high pill resistance
- Machine washable & dryer-safe
- Only available in bone

Duvet Size Indicator

The bottom left hand corner has a size indicator label sewn on for quick and easy identification. Both our 3D Duvet and 3D Duvet Blanket come with the size indicators; so when you're laundering them you can easily differentiate between all sizes.

3D Duvet

Our Oeko-Tex® certified 3D Duvet features a square quilting pattern that prevents the migration of fibers and a gusset hem that provides additional loft.

- 100% 3D polyester fill
- T-233 100% cotton ticking (shell)
- Gusset hem
- Hypoallergenic
- Machine washable, in cool temperatures
- Only available in white

3D Duvet Blanket

Our Oeko-Tex® certified 3D Duvet Blanket is quilted to prevent migration of fibers. Lightweight; perfect for warmer climates and triple sheeting.

- 100% 3D polyester fill
- T-233 100% polyester microfiber ticking (shell)
- Hypoallergenic
- Machine washable, in cool temperatures
- Only available in white

CleanBrands
The Healthy Living Experts™

Zip-N-Click™

The patented Zip-N-Click™ closure by CleanBrands provides added security by ensuring bed bugs cannot enter and/or escape the encasement at the most vulnerable point - the zipper closure. It is the only device of its kind that provides the user with an audible “CLICK”, ensuring each encasement is properly installed. Inspection is easy and accurate; if you see the green zipper pull through the clear top window, you know your property is being protected.

Waterproof Sleep Surface

Does the Sanctuary™ Encasements with MicronOne® technology help to keep my mattress cleaner?
The answer is Yes! Our products are water-resistant and waterproof, so they can help guard against stains and spills.
NEW The Sanctuary™ Master Max Series is now also available with 360° waterproofing and vented ends. Creating convenience for properties that flip their mattresses regularly.

MicronOne®

MicronOne® by CleanBrands is a patented fabric technology designed to enhance the sleep experience associated with all Sanctuary products. MicronOne® technology focuses on the microscopic fabric pore size, which stops allergens, micro-toxins, dust mites, and bed bugs from passing through to your mattress, box spring or pillow, thereby protecting your guests' skin and respiratory system.

Sanctuary™ Mattress Encasements

Our customers have asked us for a better, economical product and we listened. Eden Textile's line of Sanctuary™ Mattress Encasements uses MicronOne® fabric technology by CleanBrands. The microscopic fabric pores stop allergens, micro-toxins, dust mites, and bed bugs from passing through.

Vela™ Bed Scarves & Throws

Eden Textile’s Vela™ Bed Scarves & Throws are available in twenty-four different fabrics! These stylish bed scarves and throws make great additions to any room.

BED SCARVES		3/4 THROWS	
SIZE	DIMENSION	SIZE	DIMENSION
King	102"x24"	King	102"x50"
Queen	86"x24"	Queen	86"x50"
Double	80"x24"	Double	80"x50"
Twin	69"x24"	Twin	69"x50"

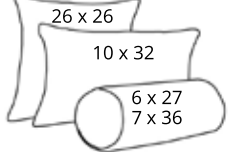

Available in three different styles: Single-sided, Reversible & 2" Border. Full length and custom lengths available.

Vela™ Accent Pillows

Our Vela™ Accent Pillows are the perfect finishing touch to any bed, providing a splash of colour and comfort. The boudoir and euro pillow are finished with a knife edge and closed with a zipper along the bottom. The bolsters are finished with a zipper at the bottom and use a foam insert to keep their shape.

STYLE	DIMENSION
Boudoir Pillow	10"x32"
Euro Pillow	26"x26"
Bolster	7"x36"
Bolster	6"x27"

Custom pillow sizes are available. Contact your sales representative for more information.

Vela™ Bed Skirts & Box Spring Covers

Vela™ Bed Skirts & Box Spring Covers are available in any of the six base fabric collections. Choose from a tailored, corner pleat, or box pleat bed skirt or fitted box spring cover (pictured below) to complete your room. The bed skirt drop can be customized up to 13.5” high.

SIZE	DIMENSION
King	78”x80”
Queen	60”x80”
Double	54”x75”
Double XL	54”x80”
Twin	39”x75”
Twin XL	39”x80”

See Measurement Guide on Page 47 for additional information on our Bed Skirt & Box Spring styles.

Vela™ Decorative Top Sheets

Triple sheeting has become the standard in the hospitality industry. Eden Textile has created Vela™ Decorative Top Sheets to make a dramatic statement with your triple sheeted bed. Each pattern was hand-selected to provide an elegant yet durable bedding option. Made with 100% polyester.

SIZE	DIMENSION
King	113”x90”
Queen	98”x90”
Double	92”x90”

Billow

*All Billow Top Sheets have a finished length of 97". Images are enhanced to represent available patterns; actual sheets are white-on-white fabric.

Vela™ Uniti Top Sheets

The Vela™ Uniti Top Sheet is an innovative end cap concept combined with a traditional top sheet. The end cap is woven into the top sheet, eliminating the need to purchase separate decorative accent pieces such as bed scarves and throws. This application will stand up to industry-standard commercial laundering and presents virtually endless design possibilities.

- 100% polyester
- Four different pattern combinations
- Available in different colour and tone-on-tone
- 120 day lead time to manufacture
- Special order with minimum order of 100 sheets per colour, per style.

★ Sahara Microfiber Isolation Gowns, Reusable

These reusable gowns are designed with a densely woven fabric made from a non-linting continuous filament polyester to provide excellent fluid resistance and protection to clinicians when dealing with patients. Built with 1% carbon yarns to reduce static build up.

The reusable Sahara Isolation Gowns provides improved comfort, a reduced carbon footprint and a long term economic benefit as compared to other disposable gowns.

Specifications

- 99% Polyester Microfiber / 1% Carbon
- 3" quick dry stretch knit cuffs
- Gown Length 46" / Sweep 65"
- Reversible and Reusable
- Overlap wrap around style to provide excellent coverage
- Machine washable and dryer safe
- Fluid Resistant with Level 3 Certified fabric

Details

- Protects the wearer from the transfer of fluids in low- or minimal-risk patient isolation situations
- Not intended for use during surgical procedures, or when there is a medium or high risk of contamination

ETHODA By Eden

CONSULTING • DESIGN • MANUFACTURING

Discover beautiful and durable textiles at every price point.

ETHODA makes your ideal room materialize before your eyes. We work with properties and designers to achieve the perfect aesthetic for your guests; both practical and affordable, from ready-made top-of-bed products to custom room designs.

Bespoke beauty for every budget: At ETHODA, simplicity helps us deliver on this promise.

Custom Manufacturing

From custom top-of-bed to window treatments, Eden Textile’s in-house manufacturing department, ETHODA, is your commercial manufacturing partner. Using our vast knowledge in textiles and design, we are able to create versatile pieces that help give your guestrooms a crisp, distinctive look. Our skilled consultants can help throughout the design process, from picking fabrics to coordinating the styles and sizes that will best fit in your space.

Our Capabilities for FF&E

We’ve got seven decades of dedication behind us.
Over the years, we’ve found what really matters when it comes to textiles. ETHODA’s fully vertical textile expertise delivers on producing high-quality products and client experiences. We offer a full service experience, from selecting your fabrics, styles and sizes to installing and training on proper use and care.

Project Management

Let our design team, backed by decades of industry experience, help plan your project. We will work within your budget to attain your design goals and keep your guests coming back time and time again!

Here’s what we have to offer:

- Design Services
- Professional Measuring Services
- Custom Manufacturing
- Installation Services

ETHODA offers nationwide measuring and installation services to fulfill your window covering needs. No matter the complexity of the project, we ensure a smooth and seamless experience.

Manufacturing Department

We pride ourselves on the capacity of our manufacturing team to handle all projects from a simple replenishment to a full hotel opening. ETHODA oversees a state-of-the-art manufacturing facility staffed with highly experienced operators. We understand how to deliver value and quality while creating efficiencies for you and your client’s projects.

Top-of-Bed

We’ve crafted a custom manufacturing process that yields consistent results for our clients. Our manufacturing team creates custom top-of-bed products designed with comfort and quality in mind to match your unique vision.

ETHODA carefully crafts unique, long-lasting elements for every room. From design and consulting services to project management throughout our simplified process, we take tremendous pride in our products and the places they’ll go.

- Top-of-Bed Offerings**
- Bedspreads (various styles)
 - Duvet covers
 - Bed scarves (runners)
 - Euro pillows, toss cushions, shams, bolsters & boudoir pillows
 - Bed skirts & box spring covers
 - Decorative top sheets

Window Treatments

ETHODA understands the importance and necessity of stylish yet functional window treatments in the hospitality and healthcare industries. Our in-house manufacturing department works on a daily basis to ensure your custom window treatments are made to your exact measurements and specifications. No matter what style of window or lighting, we can create window treatments to complete your room.

Window Treatment Options

- Endless fabrics available
- Solid & patterned fabrics
- Blackout drapery
- Dim-out drapery
- Sheers
- Decorative & designer rods
- Valance & cornice boards

Drapery Styles Options

- French pleat
- Inverted pleat
- Rod pocket
- Grommet pleat
- Ripple-fold pleat
- Cartridge

Hard Window Treatments

ETHODA puts the best design principles and practices into action, ensuring your products are of the highest calibre. We come from a long company history of quality textile goods, lending decades of tangible expertise to every project. We understand how to deliver value and quality while creating efficiencies for you and your clients.

Window Treatments Options

- Roller shades
- Blinds
- Roman shades
- Valences & cornice boards

What Is Curtain Fullness And Why Does It Matter?

Curtains can be flat or they can have fullness. Fullness is the extra fabric used across the width which provides the drape with a richer look. It increases the visual depth of field and provides more light and sound absorption.

The application, look, specifications, and budget can help determine how much fullness should be added to a drape. Another consideration is whether seams need to be 'hidden' within the pleat. The more fullness in the design, more cost is added to the drapery due to the increase in fabric used.

Roller Shades

A growing trend in the hospitality industry. Perfect for guestrooms looking to have a clean, modern feel. Roller shades use less space and can be installed behind drapery or as a standalone. They can also offer 100% blackout when inside-mounted with side channels.

Digital Printing Services are also available to add a decorative touch to your roller shade.

Grommet Pleat

Ripple-fold Pleat

Roman Shade

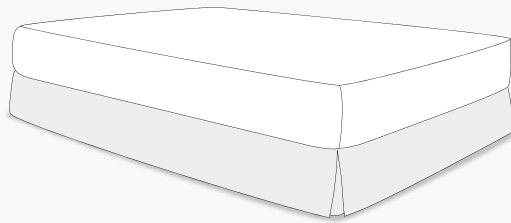

Bed Skirt Styles

Our manufacturing department makes a variety of bed skirt styles. The four standard styles are:

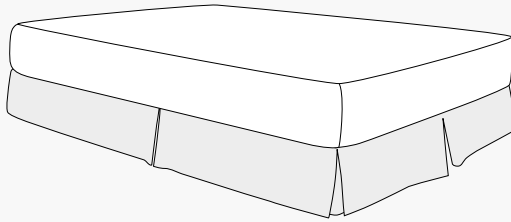

Tailored Style This modern look uniformly contours the box spring. This sleek look does not have any pleats, and offers a clean and simple accent to the bed.

Corner Pleat Style The corner pleat style is a traditional look that has a pleat at both corners at the foot of the bed.

Box Pleat Style This style utilizes five pleats; one at each corner at the foot of the bed and one in the middle of the two sides and at the foot of the bed.

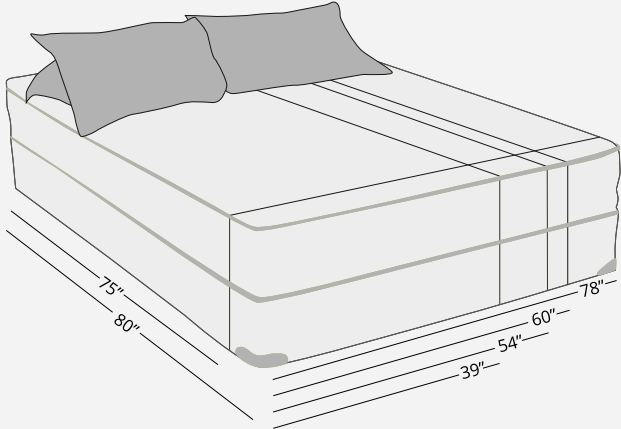

Fitted Box Spring Style This style has an elasticized fitted cover for the box spring giving a sleek modern look to your bed that reveals the bed's base.

Bed Size Comparison

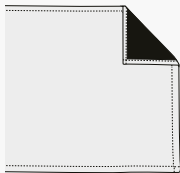

This chart represents the standard sizing that Eden Textile's sheets and top-of-bed products are made with.

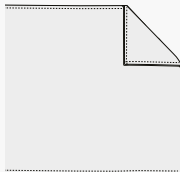

BED SIZING	CHART WxL
King	78"x80"
Queen	60"x80"
Double XL	54"x80"
Double	54"x75"
Twin XL	39"x80"
Twin	39"x75"

Bed Scarf Styles

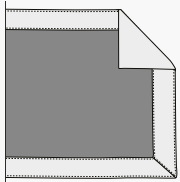

Eden Textile's manufacturing department is able to make bed scarves in many different styles. The three standards are:

Single-sided
Simple hemmed border with mitered corner and a top side finished look.

Reversible
Two fabrics hemmed together for a two-sided finished look.

2" border
A single-sided one fabric finished with a second fabric in a two inch border around it.

Bedsread Styles

Our manufacturing department makes four bedsread styles:

Waterfall Style A classic look that wraps the sides around the foot, which is then covered by a flap of fabric. This gives a waterfall effect.

Fitted Style A modern style that uniformly contours the bed and gives a clean, fitted look.

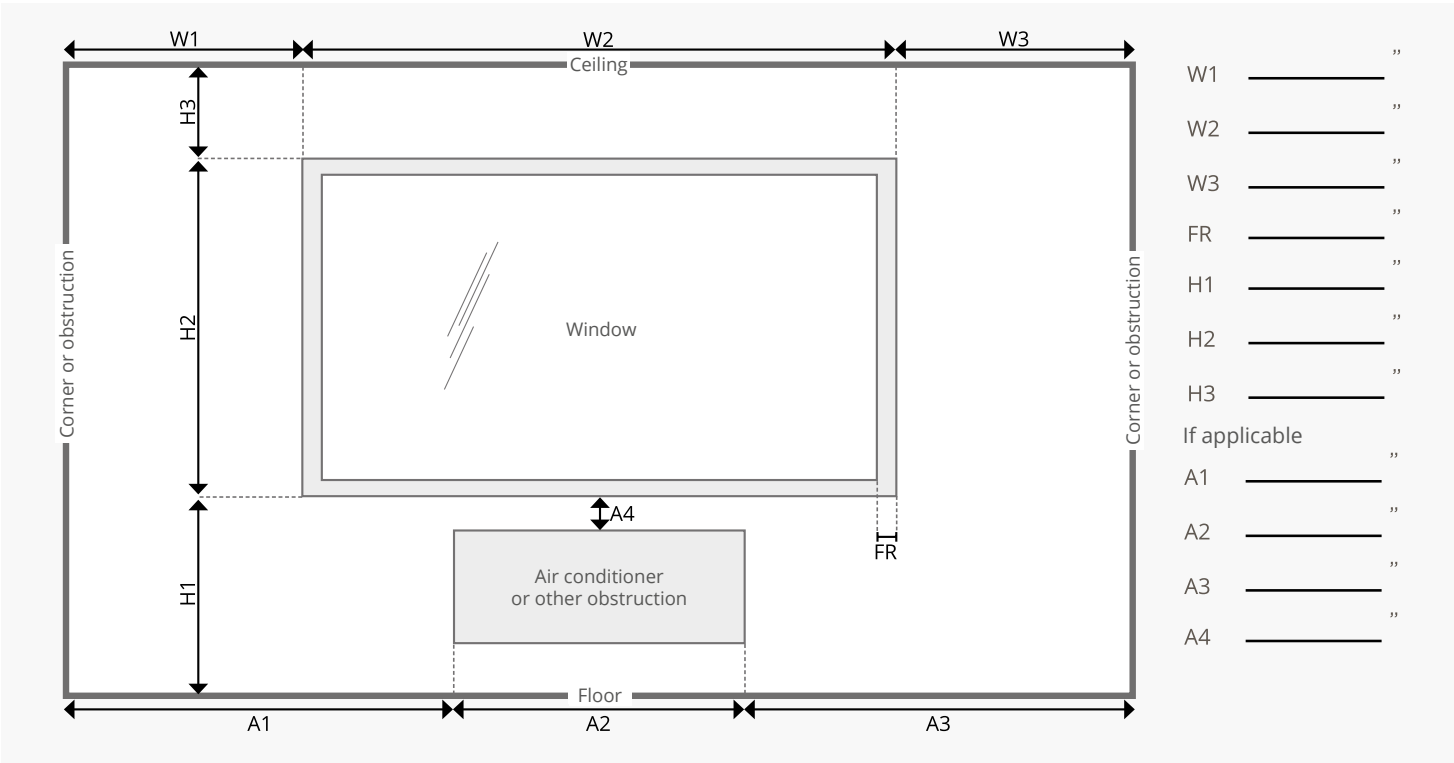

Coverlet Style Coverlets can be made of any bedsread style; the coverlet only covers the height of the mattress and does not go down to the floor like traditional bedsreads.

Throw Style The throw style bedsread has curved corners, providing a bell shape at the foot of the bed.

How to Measure for Drapery

Please use a metal measuring tape for most accurate measurements. All measurements should be recorded in inches.

What is OEKO-TEX®?

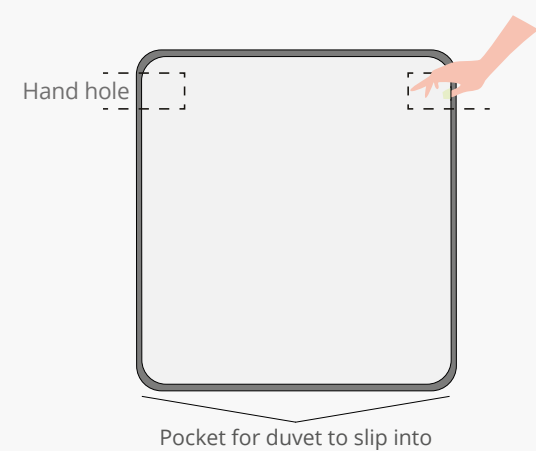

- The product is certified safe from both human and environmental perspectives.
- Harmful chemicals are avoided entirely or limited in the production of the textile.
- Textiles are free of anything that could be harmful to the consumer.
- Textiles without harmful substances are produced in environmentally-friendly conditions.

What is GSM?

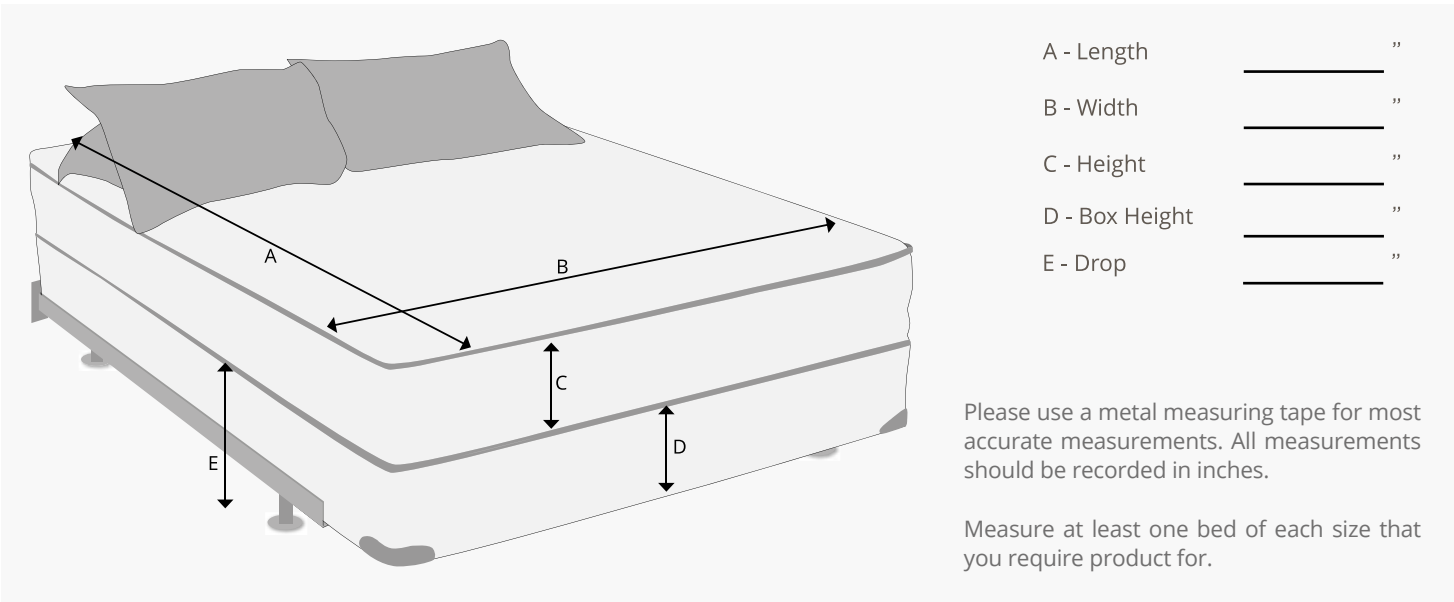

GSM = grams per square meter.
This is the weight of a fabric per square meter.

Facilitative Duvet Cover

Once the duvet is inside the duvet cover, two hand holes at the opposite end of the main opening will ease the pulling of the duvet inside.

How to Measure for Bed Treatments

Please use a metal measuring tape for most accurate measurements. All measurements should be recorded in inches.

Measure at least one bed of each size that you require product for.

How to Pick Your Table Linen Size

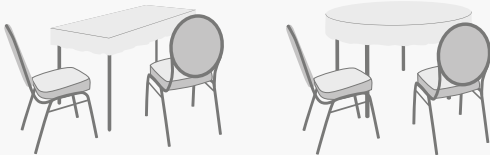

Sizing Guide for Table Linens

The following guide is to assist in choosing the correct size of linen based on desired table setting and table size.

Standard Table Linen Drops

Casual Setting	6" to 8"
Lap Level	10" to 12"
Standard Banquet Table	15"
Floor Length	29"

Casual Setting

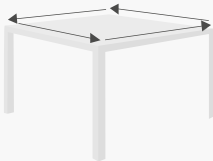

Standard Banquet Table

How to Measure for Table Skirting

Rectangular Table

If you want the table skirt to cover all four sides of the table, add all four measurements together.

If you want the table skirt to cover only the two ends and the front of the table, add only these three measurements together.

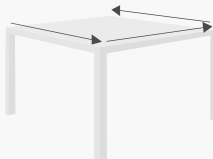

Table Linen Sizing Calculation

To determine the table linen size, use the following formulas:

Square/Rectangle
Length + (Drop x 2) by Width + (Drop x 2)

Round
Diameter + (Drop x 2)

Example: Your table is 42"x48" and the desired drop is 12" then...
 $42 + (12 \times 2)$ by $48 + (12 \times 2) = 66"$ by $72"$

Lap Level

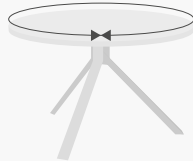

To The Floor

Round Table

If you want to fit a round table, measure the circumference of the table, or measure the diameter of the table and multiply by 3.14.

Hours

Eden Textile is open Monday through Friday as follows:

- Sales Office 7:00 am to 5:30 pm MST
- Warehouse 8:00 am to 4:30 pm MST

Please check for closures on Canadian holidays.

Payment

We accept the following methods of payment:

- Visa™, Master Card™ and American Express™
- Company cheques
- Electronic Funds Transfer (EFT)

Some exceptions may apply.

Accounts

All standard accounts (COD) are strictly prepaid invoicing, all payments must be cleared through our bank before orders will leave our warehouse.

To open a credit account (terms) with us, we require a credit application form to be completed. Following approval of this application, payment terms are due within net thirty (30) days from the date of invoice. A 2.5% per month interest fee will be charged on all overdue balances.

Carriage

Orders may qualify for free shipping to Canadian provinces based on order value, with the exception of large items and manufacturing orders. All orders shipped to Canadian territories will have freight costs that vary depending on order size and location.

Power tailgate service and inside delivery are available upon request for an additional fee. For inside delivery, our carrier partners will only bring the shipment ten (10) feet inside of the door.

Contact your Account Representative for more information on shipping.

Delivery

We do our best to dispatch orders promptly, but in the event of late deliveries we cannot take responsibility for any consequential loss incurred.

Shortages

In the unlikely event of shortages in your delivery, please notify Client Services immediately upon receipt using one of the following:

- Email: clientservices@edentextile.com
- Phone: 800 661 7239

Shortages must be reported within five (5) days from receipt of goods. All efforts will be made to rectify discrepancies in a timely manner. Accurate receiving papers will be required on all claims made.

Returns & Warranty Claims

If you are unhappy with any of our products or services, please call us immediately. We will be pleased to discuss your concerns and work with you to make arrangements to correct the situation.

Returns or warranty claims on items more than ninety (90) days from purchase are subject to assessment. Products may not be returned without first contacting Client Services. Returns may be subject to a 25% restocking charge and all related freight charges. Any unauthorized returns or collect shipments will be refused.

Samples

We are pleased to supply samples of our products for evaluation purposes; however, we reserve the right to limit samples or provide non-standard sizes. Contact your Account Representative to arrange for a sample to be dispatched.

Specifications

Product specifications are correct at the time of print. We may need to change the specification of products during the life of our catalogue without notice. However, we will always try to ensure the new specifications are better than the current offering.

Sizes and Shrinkage

All sizes detailed in the catalogue are approximate. All goods are produced to a specification which includes a tolerance for manufacturing. All textile goods, particularly cotton and cotton polyester blends, are liable to experience some shrinkage upon washing and drying.

Care Instructions

Wash and care guidelines are included in this catalogue. Always wash items before use and ensure the recommended care instructions are followed for best results.

Colours

Every care has been taken to show colours accurately, but colour reproduction is limited by the printing processes. For accurate colour matching we advise that you request a fabric swatch. Please note, colours may vary between batches, fabrics or goods.

Quality Assurance

Eden Textile prides itself on adhering to the strictest quality guidelines in our industry. We aim to provide a consistent product from purchase to purchase. Our processes and specifications allow us to provide dependable quality not only in our high-end products, but our economical products as well.

Limit of Liability

All goods are supplied by us on the condition that our liability for any fault or defect in the condition, description, fitness or quality for any purpose is limited in amount to a sum not exceeding the purchase price indicated on the invoice of the particular goods.

CARE INSTRUCTIONS

Sheets

-  Machine wash in warm water, on normal cycle, maximum temperature of 60°C (140°F).
-  Use mild detergent. Non-chlorine bleach only.
-  Tumble dry low on permanent press setting, maximum temperature of 55°C (131°F).
-  Remove sheets promptly to reduce wrinkling.
-  Use cool iron if necessary.
-  Wash colours separately and separate from other linens such as towels.
-  Wash heavily soiled items separately from lightly soiled items.

Decorative Top Sheets, Duvets and Pillows

-  Machine wash in cool water, on delicate cycle in a large-capacity front-load washing machine with a maximum temperature of 30°C (86°F)
-  Do not overfill washing machine.
-  Use mild detergent and do not use fabric softeners or conditioners.
-  Non-chlorine bleach only.
-  Tumble dry on low permanent press setting, with a maximum temperature of 55°C (131°F).
-  Use a dryer ball when drying pillows. A dryer ball will maintain movement of the pillow, allowing for faster and more even drying.
-  Ensure items are completely dry before storing and re-fluff before storage or before use. Do not store in plastic.
-  Wash heavily soiled items separately from lightly soiled items.

Towels

-  Machine wash in warm water, on normal cycle with a maximum temperature of 40°C (104°F).
-  Use mild detergent and non-chlorine bleach only.
-  Do not use fabric softeners or conditioners since these will reduce the towels absorbency.
-  Tumble dry on low-medium heat with a maximum temperature of 65°C (149°F).
-  Remove towels promptly to reduce wrinkling.
-  Do not iron.
-  Wash colours separately.
-  Wash heavily soiled items separately from lightly soiled items.

Robes

-  Machine wash cool on delicate cycle with a maximum temperature of 30° (86°F).
-  Use mild detergent and do not use bleach.
-  Tumble dry on low heat or hang to dry.

Duvet Covers, Bedspreads, and Bed Skirts

-  Machine wash in cool water on delicate cycle with a maximum temperature of 30°C (86°F).
-  Use mild detergent and non-chlorine bleach only.
-  Do not use fabric softeners or conditioners on polyester fabrics.
-  Tumble dry on low permanent press setting with a maximum temperature of 55°C (131°F) or hang to dry.
-  Remove promptly from dryer to reduce wrinkling.
-  Use cool iron only if necessary.
-  Wash colours separately.
-  Wash separately from other linens.
-  Wash heavily soiled items separately from lightly soiled items.

Drapery and Window Coverings Uncoated

-  Machine wash cool on delicate cycle with a maximum temperature of 30°C (86°F).
-  Use mild detergent and non-chlorine bleach only.
-  Do not use fabric softeners or conditioners on polyester fabrics.
-  Tumble dry low on permanent press setting with a maximum temperature of 55°C (131°F), or hang to dry.
-  Remove promptly from dryer to reduce wrinkling.
-  Use cool iron only if necessary.
-  Wash colours separately.
-  Wash separately from other linens.
-  Wash heavily soiled items separately from lightly soiled items.
-  May be professionally dry cleaned using perchloroethylene solvent.
-  Vacuum on a regular basis to reduce cleaning frequency.

Coated or Blackout

-  Do not machine wash or dry clean.
-  Vacuum on a regular basis.
-  Wipe clean with a damp cloth.

DO NOT USE washing machines or dryers with burrs inside when washing towels, duvet covers, bedspreads, bed skirts and drapery.

DO NOT USE chlorine based bleach on our products. When necessary a non-chlorine or oxygen bleach, such as OxyClean™ or Clorox2™, should be used.
